Independent Auditors' Report

Board of Trustees The American Numismatic Society

We have audited the accompanying financial statements of The American Numismatic Society (the "Society") which comprise the statements of financial position as of September 30, 2015 and 2014, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The American Numismatic Society as of September 30, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedules of changes in unrestricted, temporarily restricted and permanently restricted net assets for the year ended September 30, 2015 and functional expenses for the years ended September 30, 2015 and 2014 on pages 20 - 24 are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements
September 30, 2015 and 2014

1. Organization

The American Numismatic Society (the "Society") is a nonprofit organization organized in 1858 and incorporated in 1865. The mission of the Society is to be the pre-eminent national institution advancing the study and public appreciation of coins, medals and related objects of all cultures as historic and artistic documents, by maintaining the foremost numismatic collection and library; by supporting scholarly research and publications; and by sponsoring educational and interpretive programs for diverse audiences. Items in Society collections are available for loan to other museums for exhibits on particular themes. The Society is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code.

2. Summary of Significant Accounting Policies

Basis of Presentation and Use of Estimates

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP), which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include short-term investments with maturities of three months or less at the time of purchase, except for those short-term investments managed by the Society's investment manager as part of the Society's long-term investment strategies.

Fair Value Measurements

The Society follows US GAAP guidance on Fair Value Measurements which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable inputs and are used to the extent that observable inputs do not exist.

During fiscal year 2015, the Society adopted new US GAAP guidance which removed the requirement to categorize within the fair value hierarchy alternative investments where fair value is measured using the Net Asset Value ("NAV") per share as a practical expedient. Adoption of this guidance was applied retrospectively and no effect on the carrying value of such investments.

The American Numismatic Society

2. Summary of Significant Accounting Policies *(continued)*

Beneficial Interest in Perpetual Trusts Held by Third Parties

The Society is the beneficiary of certain perpetual trusts under which the trust income is received annually for unrestricted use. The assets are held by trustees which are independent from the Society. Distributions from the trusts are recorded as unrestricted contributions when received. The Society's beneficial interest in these perpetual trusts is recorded based on the fair value of the assets held in the trusts as reported by the trustees and is reported as permanently restricted net assets. Annual changes in such amounts are shown as permanently restricted unrealized gains or losses.

Investment Valuation and Investment Income Recognition

Investments are carried at fair value. The fair value of alternative investments has been estimated using NAV as reported by the management of the respective alternative investment fund. US GAAP guidance provides for the use of NAV as a "Practical Expedient" for estimating fair value of alternative investments.

Purchases and sales of investments are reflected on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded based upon ex-dividend dates. Realized and unrealized gains and losses are included in the statement of activities and allocated among individual restricted and unrestricted funds on the basis of the respective percentage share in the pooled funds at the beginning of each quarter in which income and realized and unrealized gains or losses are earned.

Investments Risks and Uncertainties

Alternative investments consist of non-traditional, not readily marketable investments, some of which may be structured as offshore limited partnerships, venture capital funds, hedge funds, private equity funds and common trust funds. Some of the underlying investments of such funds, whether invested in stock or other securities, may not be currently traded in a public market and typically may be subject to restrictions on resale. Values determined by investment managers and general partners of underlying securities that are thinly traded or not traded in an active market may be based on historical cost, appraisals, a review of the investees' financial results, financial condition and prospects, together with comparisons to similar companies for which quoted market prices are available or other estimates that require varying degrees of judgment.

Because of the inherent uncertainty of valuations, the estimated fair values may differ significantly from the values that would have been used had a ready market for such investments existed or had such investments been liquidated, and those differences could be material.

The American Numismatic Society

2. Summary of Significant Accounting Policies *(continued)*

Society Collections

The Society's collections consist primarily of coins, medals, paper money and books. They are cataloged, preserved, and cared for, and activities verifying their existence and assessing their condition are performed periodically. The Society's collections, acquired through purchase and contributions, are not recognized as assets in the statement of financial position. Purchases of collection items are recorded in the year in which the items were acquired as decreases in unrestricted, temporarily restricted or permanently restricted net assets, based on donor restrictions placed on assets used to purchase the items. Proceeds from deaccessions are reflected as increases in the appropriate net asset class, and are used to acquire other items for the collection. The current value of the collections is not readily determinable.

Receivables

Receivables are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding, after management has used reasonable collection efforts, are written off through a charge to the valuation allowance and a credit to accounts receivable.

Property and Equipment

Property and equipment are recorded at cost less accumulated depreciation. The cost of maintenance and repairs is charged to expense as incurred. Significant renewals and replacements which substantially extend the lives of the assets are capitalized when the cost exceeds \$5,000.

Assets currently in service are depreciated principally using straight-line methods over the estimated useful lives of the assets as follows:

Furniture and office equipment	5-10 Years
Leasehold improvements - One Hudson Square	Life of lease (248 months at inception)

Asset Recoverability

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying value amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. No impairment charge has been recognized.

2. Summary of Significant Accounting Policies (*continued*)

Deferred Leasing Costs

The deferred leasing costs relate to the inception of the lease at Hudson Square. The costs are amortized over the life of the lease (20 years and 8 months) on a straight-line basis.

Net Asset Presentation

The Society reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets are neither permanently restricted nor temporarily restricted by donor-imposed restrictions. As reflected in the accompanying statement of financial position, the Society has designated its unrestricted net assets into the following two categories:

Undesignated net assets are net assets that are an integral part of the Society's programs and supporting activities and include realized capital gains and unrealized appreciation on permanently restricted net assets in the absence of donor imposed restrictions on either income or capital appreciation. These net assets are resources over which the Board of Trustees ("Trustees") has discretionary control to use for operations.

Designated net assets are net assets which the Trustees have established a restriction for specified purposes. These net assets are differentiated from temporarily restricted net assets because the Trustees can remove the restrictions it imposed. The Trustees have designated these net assets for property and equipment and North American Chair.

Temporarily restricted net assets contain donor-imposed restrictions that permit the Society to use or expend the donated assets as specified. These restrictions are met by actions of the Society.

Permanently restricted net assets contain donor-imposed restrictions that stipulate the resources be maintained permanently, but may permit the Society to use or expend part or all of the income from the donated assets for specified or unspecified purposes.

Deferred Rent

The Society has entered into an operating lease agreement which contains a provision for future rent increases. The total amount of rental payments due over the lease term is being charged to rent expense on the straight-line method over the term of the lease. The difference between rent expense recorded and the amount paid is reflected as deferred rent, in the accompanying statement of financial position.

The American Numismatic Society

Notes to Financial Statements
September 30, 2015 and 2014

2. Summary of Significant Accounting Policies *(continued)*

Accounting for Uncertainty in Income Taxes

The Society recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. Management has determined that the Society had no uncertain tax positions that would require financial statement recognition or disclosure. The Society is no longer subject to examinations by the applicable taxing jurisdictions for periods prior to fiscal 2012.

Governmental Grants and Appropriations

Cost-reimbursement governmental grants are recognized as revenue at the same time as expenses are incurred based on the terms of the grant.

Contributions

Contributions, including promises to give, are recorded as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires i.e., when a stipulated time restriction ends, or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

The Society recognizes contributions restricted by a donor for the acquisition or construction of long-lived assets as temporarily restricted support and reclassifies such support to unrestricted net assets when the asset is placed in service.

Nonmonetary contributions (stocks, bonds, etc.) are recorded at estimated fair value at date of receipt.

Donated Services

The Society received donated services from its officers, directors and other volunteers. No amounts are reflected in the financial statements for these services, as such services do not meet the criteria for recognition in the financial statements.

Functional Allocations of Expenses

The costs of providing for the various programs and other activities have been summarized on a functional basis in the financial statements. Accordingly, certain costs have been allocated among the program and supporting services benefited.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is December 15, 2015.

The American Numismatic Society

Notes to Financial Statements
September 30, 2015 and 2014

3. Concentrations

Financial instruments that potentially subject the Society to concentrations of credit risk consist principally of cash and money market accounts in financial institutions, which may exceed the federal depository insurance coverage limit, brokerage accounts which may exceed insurance coverage limits, and investments in marketable securities and investment partnerships. The Society's cash management policy is to mitigate the Society's credit risks by investing in or through major financial institutions. Additionally, the Society has retained an investment advisor to assist with periodic reviews of the Society's investment portfolio in order to minimize risk.

The Society receives its contributions primarily from its members, Trustees, and other foundations interested in its programs. There is no assurance that the funding will continue at its present levels in the future.

4. Pledges Receivable

Pledges receivable consist of pledges for the Hudson Square renovation.

The pledges receivable were originally restricted for the development of the Exhibition Hall at the William Street location. With the sale of the William Street building, the donors have modified their pledges so that the funds are now restricted for improvements to be made at the Hudson Square facility. For the year ended September 30, 2015, all of the pledges receivable were expected to be collected within the next two fiscal years.

(1) As discussed in Note 2, investments that are measured using the practical expedient are not classified within the fair value hierarchy. The fair value amounts presented in the total column of these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of financial position.

Information regarding alternative investments valued at NAV using the practical expedient at September 30, 2015 is as follows:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Hedge Funds				
Hedged equity (see "a" below)	\$ 3,324,330	\$ -	Quarterly	45 days
Multi-strategy/credit (see "b" below)	<u>5,513,763</u>	<u>-</u>	Quarterly	60-90 days
Total	<u>\$ 8,838,093</u>	<u>\$ -</u>		

- a. Hedged equity is defined as long/short investing across geographies and market capitalization. The manager may possess a niche strategy focused on small/mid cap stocks or may pursue a broader global mandate. The role of this allocation is to capture equity-like returns, but do so with approximately one-half of the volatility of the equity markets.
- b. Multi-strategy investments are diversifying strategies within a portfolio context and they evolve as opportunities arise. This allocation may include bonds and currencies of countries, in strong socio-fiscal condition, senior secured bank debt, as well as high yield bonds and mortgages. Multi-strategies generally have a low correlation to each other as well as equity and credit strategies employed within the portfolio.

	<u>\$ (834,242)</u>	<u>\$ 2,895,251</u>

7. Endowment Funds

The Society's endowment consists of various individual gifts established primarily to support the mission of the Society. Its endowment consists of donor-restricted endowment funds. As required by US GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Trustees of the Society have interpreted New York Prudent Management of Institutional Funds Act (NYPMIFA) as requiring the preservation of the value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary, or in those cases where the law allows appropriation for spending of the original gift amounts. As a result of this interpretation, the Trustees classify as permanently restricted net assets (a) the original value of the gifts donated to the permanent endowment and (b) the original value of subsequent gifts to the permanent endowment. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets, until those amounts are appropriated for expenditure by the Trustees in a manner consistent with the standard of prudence prescribed by NYPMIFA.

Annual investment returns are allocated to unrestricted and restricted net assets based on the respective percentage share in the pooled funds at the beginning of each quarter in which income and realized and unrealized gains or losses are earned.

Return Objective and Risk Parameters

The Society utilizes a total return investment approach with its asset allocation diversified over multiple asset classes. Target allocation percentages are established for various asset classes and are modified over time. Performance is measured against composite benchmark of investment indices reflecting the target asset allocation.

7. Endowment Funds *(continued)*

Return Objective and Risk Parameters (continued)

Endowment assets include both those assets of donor-restricted funds that the Society must hold in perpetuity as well as their accumulated earnings. Under this policy, as approved by the Trustees, the endowment assets are invested in a number of different asset classes and investment strategies to diversify the investments to provide a balance that will enhance the long-term total return of the overall investment portfolio while avoiding undue risk or concentration in any single asset class or investment category.

Under the Society's current spending policy, up to 5% of the average market value of the Society's net assets of the previous three year period is available for appropriation. For 2015, this amount totaled \$1,928,484. In the year when annual investment returns are in excess of annual expenditures, there is no spending down of net assets, only an increase to the total net assets.

The following is a reconciliation of the investment activity in donor restricted funds for the years ended September 30, 2015 and 2014:

	Board Designated	Temporarily Restricted	Permanently Restricted	Total

8. Society Collections

Various coins were lent to the Society by several organizations. The number of coins on loan to the Society as of September 30, 2015 and 2014 is as follows:

New Jersey Historical Society	271
Private parties	<u>29,444</u>
Total Number of Coins on Loan to the Society	<u>29,715</u>

9. Loan Receivable

In connection with the purchase of the Society's former headquarters at 140 William Street NY, NY, 140 William, LLC issued the Society a \$2 million note, representing a portion of the purchase price. That note carried an 8% per annum interest rate and matured on November 27, 2010 and is now in default. The note, however, had been guaranteed by Kent Swig, an officer of 140 William, LLC. Mr. Swig subsequently sought and received protection under federal bankruptcy law.

On April 18, 2011, the Clerk of the Court, New York County, entered a judgment in favor of the Society against Mr. Swig, the guarantor and awarded the Society an additional \$469,638 in costs, legal fees and interest through the judgment day. As of September 30, 2015, the guarantor's bankrupt estate has paid the Society a total of \$415,446.

As of September 30, 2015, the Society recorded an allowance of \$1,469,638 against this loan.

10. Deferred Leasing Costs

Deferred leasing costs at September 30 consist of the following:

	<u>2015</u>	<u>2014</u>
Cost	\$ 104,773	\$ 104,773
Accumulated amortization	<u>(37,987)</u>	<u>(32,748)</u>
	<u>\$ 66,786</u>	<u>\$ 72,025</u>

Amortization expense for each of the 5 years after September 30, 2015 is expected to approximate \$5,200.

16. Rental Commitments

Hudson Street Facility

The Society leases space in a building known as One Hudson Square. The lease commenced on March 1, 2008 and expires on November 30, 2028. The lease provides for the tenant to pay escalations in real estate taxes over the base year and fixed escalations as provided in the lease for increases in the landlord's operating costs. In addition, the lease provides that the tenant shall purchase its utilities from the landlord. The lease provides for a five-year renewal term with the lease payment to be the greater of the rent payable for the last year of the lease or the annual fair value of the rent determined in accordance with the lease. Under the terms of this lease, the Society provided the landlord an irrevocable standby letter of credit in the amount of approximately \$400,000 as a security deposit. During the 2011 fiscal year, the Society entered into an additional lease agreement to rent space in the basement of One Hudson Square. This lease covers a term of 17 years and 5 months following the commencement date of the lease, May 1, 2011. The lease requires the Society's to make a monthly payment of \$373 the first of every month. Rent expense for the years ended September 30, 2015 and 2014 totaled \$1,170,284 and \$1,170,116 which included \$148,219 and \$172,794 of amortized deferred rent, respectively.

Future minimum annual rent commitments for years ending September 30, under the leases (including fixed common area maintenance charges) is as follows:

<u>Year Ending</u> <u>September 30</u>	<u>Amount</u>
2016	\$ 1,047,255
2017	1,073,075
2018	1,099,540
2019	1,204,703
2020	1,234,458
2021 and thereafter	<u>11,450,344</u>
	<u>\$ 17,109,375</u>

17. Interfund Transfers

A meeting held by the Executive Committee on February 5, 2015 resolved that all proceeds, past and future, from the sale of duplicate Gobrecht Dollars, contributed by the Estate of Julius Korein in 2008, be Board Designated to the North American Chair. All such duplicate-sale proceeds received since 2008 are to be categorized as Board Designated funds and be retroactively removed from the permanently restricted endowment category. In addition, all investment income, past and future, generated from the proceeds of the these coin sales will also be categorized as Board Designated funds, and that a portion of such Board Designated funds will be used to defray the annual ongoing expenses associated with the North American Chair.
